

**H**uman Systems Strategic Management is a disciplined process designed to provide an organization with a sustainable competitive advantage through the commitment of its people to the organization's strategic objectives. The people involved are all of the people in the organization's value system or supply chain.

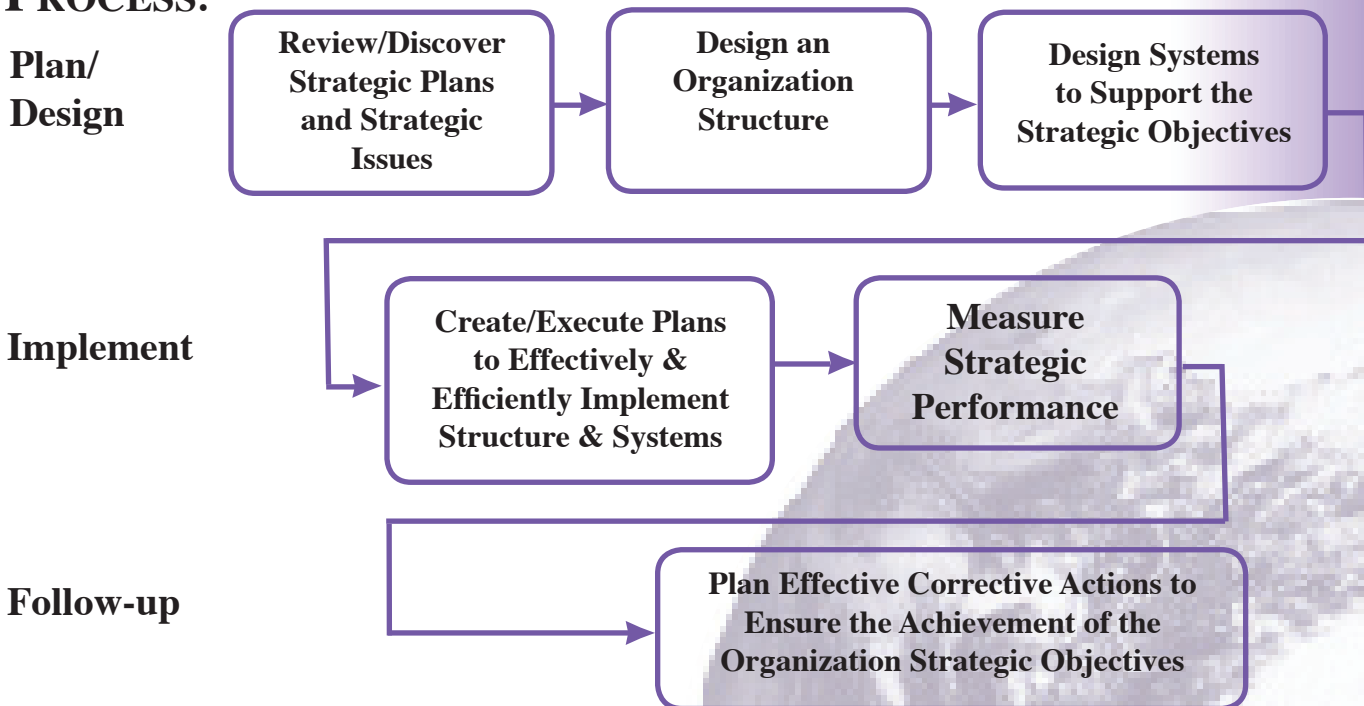

# HSSM fact Sheet

# Human Systems Strategic Management

## BENEFITS:

- 1- Identification of what it will take for your organization to create a competitive advantage through people
- 2- Identification of strategic issues beyond people issues
- 3- Ensuring the best fit between your organization's people and its strategic objectives
- 4- Mechanism to ensure the ongoing extraordinary performance of the people in your value system

## PROCESS:

**TPG will help organizations to compete effectively in the 21st century with Human Systems Strategic Management.**

**TPG is a coalition of creative, entrepreneurial Associates working synergistically, building solutions with clients, to enable clients to improve their human systems performance and become self-reliant.**
